## Doctors Battle To Save Student Shot On Campus

Make Strenuous Efforts To  
Save Life Of Missouri  
U. Student

GUN WIELDER IS  
HELD ON BOND

Campus Feud Over Recent  
Girl Kidnaping May  
Prove Fatal

(International News Service)  
COLUMBIA, Mo., Mar. 24.—  
Doctors battled today to save  
the life of Frank Luckey, one of  
three engineering students shot  
in a campus feud over the  
prankish kidnaping of Mary  
Louise Butterfield, pretty Uni-  
versity of Missouri coed.

More than half a dozen blood  
transfusions were necessary to stave  
off death, physicians announced,  
but the danger of peritonitis lingered  
and rendered Luckey's condition  
extremely grave.

Freed On Bond.

Meanwhile, Burnis Frederick, ac-  
cused of wielding the revolver, was  
free on \$1,000 bond under charges  
of carrying a concealed weapon. Ar-  
raigned before Justice W. H. Tandy  
last night, Frederick, a law student,  
pleaded not guilty through his at-  
torney.

The campus war between the em-  
bryo engineers and lawyers broke  
out when law students last Saturday  
night kidnaped Miss Butterfield and  
did not return her until it was too  
late to crown the coed "St. Pat's  
Queen" at the Engineers' Annual  
Ball.

## PA NEW OBSERVES

From appearances around the  
site of the new post office on the  
public square, the process of evacu-  
ation is under way. Some of the  
buildings are being vacated, so that  
work of raising the old structures can  
be started as soon as the site is for-  
mally purchased.

Tomorrow is Good Friday.

School sessions end for New Cas-  
tle pupils today, for a brief vaca-  
tion period. There is no school  
on Friday or Monday, because of  
the Easter season.

Wayne Pitzer, an employee of the  
mailing department of The News,  
and his bride, who was Miss Eliza-  
beth Kerr, were taken for a ride  
Wednesday evening which they will  
not soon forget. Securing an old  
backboard, they attached it to the  
rear of an automobile and drove it  
through the downtown streets.

Central firemen are including ice  
cream in their diet almost daily.  
Fireman Charles Mills has con-  
structed a motor-driven freezer,  
which the boys fill up several times  
a week. It works very efficiently,  
but Mills has not yet had the freezer  
patented.

the public schools of New Castle

WERE WARNED NOT  
TO MAKE FLIGHT

Men Bought New Plane And  
Took Off In Face Of  
Severe Storm

(International News Service)  
BECKLEY, W. Va., Mar. 24.—  
Two Beckley aviators, who braved  
high winds Sunday and took off  
from a Memphis, Tenn., airport in  
a newly-purchased plane, have dis-  
appeared, relatives said today.

The fliers, Carl Williams and  
William Harrah, have been missing  
since Sunday at 1 p. m.

Fear Mishap.

It is feared they may have met the  
fate of Hal George, Columbus, O.,  
pilot, and Dr. Carol S. Cole, St.  
Louis woman physician, who were  
killed in a storm that raged over  
eastern Ohio and northern West  
Virginia Monday morning.

Henry Heart, who sold the men  
the plane, said he warned them  
against trying to fly in such weath-  
er, but that "the two decided to  
take a chance."

A few hours later the wind in-  
creased to a tremendous velocity and  
many sections of the country, in-  
cluding Tennessee, were swept by a  
tornado.

Tennessee airports have been  
checked for a trace of the fliers  
without success.

## Aerial Dash To New Gold Field Gets Under Way

Intrepid Flier Wings Way To  
Area Where Gold Has  
Been Found

(International News Service)  
ST. JOHN, N. B., Mar. 24.—Lured  
by stories of vast wealth to be found  
in mineral deposits on Great Bear  
Lake, the world's first great airplane  
mining rush was under way today  
along the uncharted air trails across  
the snowy wastes of the great north-  
west.

Already, Harry W. Hayter, 33, in-  
trepid flier was winging his way  
in short dashes to the area where  
reports of radium strikes and gold  
finds circulate.

Hayter embarked on his adventu-  
rous trip from here as pioneer of  
a great wealth hunting expedition  
although he is a pilot of but two  
years experience.

His flight was undertaken secretly  
as emissary of the group of prospec-  
tors who will follow him if he sends  
back word at the end of his course  
that their hopes of almost fabulous  
wealth are based on reality.

H. Norman Schwarzkopf, head of  
the New Jersey State police, was

## Bold Local Robberies Recalled By Events In New Jersey Town

Burglar Who Robbed Hoyt  
Homes Here Figures In  
Jersey Sensation

Discover He Had Escaped  
From Rockview Peni-  
tentiary In July

Arrest of Richard Cowan, alias  
George Mulden, last Saturday, after  
an attempt to enter the home of  
J. Seward Johnson, wealthy manu-  
facturer of surgical dressings, in  
Highland Park, N. J., and his sub-  
sequent admission that he had es-  
caped from the Western Peniten-  
tiary at Rockview, Pa., on July 22,  
1931, brings to mind one of the  
boldest robberies perpetrated in this  
city in many years.

When arrested at Highland Park,  
N. J., Cowan gave the name of  
George Mulden. Later he changed it  
to Richard Cowan.

It was one night the first part of  
February, 1928, that the homes of  
Miss May Hoyt and Alex. Crawford  
Hoyt, on Winter avenue, were en-  
tered and a watch, diamond ring  
and other articles of value taken.

Discovered In Home

The theft was discovered in the  
May Hoyt home and after relieving  
Frank Hoyt of a ring and money at  
the point of a gun, made his escape.  
It had snowed and the police, warn-  
ed immediately of the happening,  
started to trail the robber in their  
task.

Officers Carl Lockard and Claren-  
ce Samuels followed the trail to  
Harbor Bridge on foot and tired  
out, called from Eckles Store, at  
that place for a conveyance.

Frank and Alex. C. Hoyt and Of-  
ficers John Moore, U. G. Harper  
and George Kennedy hurried to that  
point in cars. From that point, Of-  
ficers, Lockard, Samuels, Moore and  
Alex. C. Hoyt continued on to Ed-  
enburgh.

At the interurban line station  
there, Officers Lockard and Sam-  
uels located Cowan apparently wait-  
ing for an interurban car and with  
Officer Moore arrested Cowan and

WILL  
ROGERS  
says:

(Special To The News)  
BEVERLY HILLS, Cal., Mar.  
24.—Congress knocked the rich  
in the creek with a 72 per cent  
income tax, then somebody must  
have told 'em "Yes, congress,  
you got 'em while they are liv-  
ing. But what if they die on  
you to keep from paying it?"

Congress says, "Well, never  
thought of that, so we will frame  
one that will get 'em, alive or  
living, dead or deceased."

Now they got such a high in-  
heritance tax on 'em that they  
won't catch these rich old boys  
dying promiscuously like they  
did.

This bill makes patriots out  
of everybody; you sure do die  
for your country from now on.

## House Debates Sales Tax Plan

Crowded Galleries At Wash-  
ington As Tax Battle  
Ensues

CHAIRMAN CRISP  
LEADS TAX PLEA

(International News Service)  
WASHINGTON, Mar. 24.—  
The House today came to grips  
on the manufacturers' sales tax  
with galleries crowded and the  
air surcharged with excitement.

Immediately after the House con-  
vened the most controversial feature  
of the \$1,096,000,000 tax boost bill  
was laid before the House for ac-  
tion.

In a fighting mood after a day's  
rest ordered by his physician, Act-  
ing Chairman Crisp (D) of Georgia  
of the ways and means committee,  
asked approval of amendments to  
the manufacturers' tax section  
eliminating all foodstuffs, clothing,  
farm products and other neces-  
saries from the tax.

To Produce \$460,000,000

With the changed tax is esti-  
mated to produce \$460,000,000  
instead of \$595,000,000 as originally  
proposed for an emergency period  
ending June 30, 1934.

The manufacturers' tax, described  
by leaders as the "heart" of the bill,  
is necessary if Congress is to balance  
the budget without laying hard-  
ships on a few particular industries,  
Crisp maintained.

It was attacked by opponents.  
Representatives Doughton (D) of  
North Carolina, Rankin (D) of Mis-  
sissippi and La Guardia (R) of New  
York, as "an attempt to shift the  
tax burden to the poor people" of  
the nation.

Other Tax Plans

The committee was prepared, it  
was said, to take its place.

These include a one cent a gallon  
tax on gasoline, tax on domestic  
consumption of electricity and gas,  
stamp tax on checks and other in-  
struments, tax on automobile sales  
and similar levies, etc.

The opposition was divided. Some  
proposed different forms of taxa-  
tion, including special sales tax to  
wipe out the treasury deficit. Others  
proposed to raise money by sell-  
ing bonds, thus increasing the na-  
tional debt.

Rep. Lehlbach (R) of New Jer-  
sey, obtained the floor to offer the  
first amendment. He proposed to  
exempt from the sales tax merchant  
vessels and furnishings built or pur-  
chased with money loaned by the  
government under the Merchant

## Armory Board Accepts Site On Scotland Lane

Final Action Is Taken At  
Meeting At Harrisburg

ONLY MINOR DETAILS  
YET TO BE SETTLED

Expect Entire Project To Be

(International News Service)

HARRISBURG, Mar. 24.

The tract of land offered  
by New Castle at the corner  
of Scotland Lane and West  
Washington street for con-  
struction of an armory for  
Troop F was finally accept-  
ed by the State Armory  
Board at its regular meeting,  
officials announced today.

The Armory Board did not accept  
the deed for the land which was  
presented at the meeting, however,  
pending settlement of several minor  
details involving actual transfer of  
the tract. Officials of the board  
unqualifiedly declared, nevertheless,  
that the tract had been accepted  
and the technical matters delaying  
transfer of the deed could be quick-  
ly settled.

Secure Small Addition

At its meeting on February 25,  
the board "generally accepted" the  
offer of the city but at that time  
Gen. A. J. Logan, of Pittsburgh,  
senior member, stated that a small  
addition of land would be necessary  
to increase the width of the site  
Louis B. Round, of New Castle,  
chairman of the civilian sponsor  
committee, directed arrangements  
for securing the additional land, and  
General Logan urged the board to  
accept the tract.

Because of the Easter holidays,  
the board went into session last  
night instead of today as originally  
scheduled. The bulk of the business  
was transacted last night while re-  
maining details were disposed of this  
morning when announcement of ac-  
ceptance of the New Castle site was  
made.

Georgia's Democratic preferential

# SALES TAX MORE COSTLY TO PENNSYLVANIA

## Congressman Gives Figures

Ketcham Says It Would Cost  
State Of Pennsylvania  
12 Per Cent More

WOULD PAY 10.5  
PER CENT OF TAX

By ARTHUR C. WIMER  
Special Washington Correspondent of  
The New Castle News  
WASHINGTON, D. C., Mar. 24.—The raising of additional  
needed revenue through a man-  
ufacturers' sales tax would cost  
Pennsylvania about 12 per cent more  
than would the realization of such money thru  
income and corporation taxes, ac-  
cording to data given the  
house of representatives by Rep-  
resentative Ketcham, Republi-  
can of Michigan.

As a basis of his calculations, Mr.  
Ketcham used \$500,000,000 as the  
amount to be raised by additional  
taxation. If this taxation came  
in the form of a manufacturers' sales  
tax, Pennsylvania would pay 10.5 per  
cent of the total, or \$52,500,000. If  
the funds were collected through in-  
come and corporation taxes, the  
Keystone state would pay only 9.56  
per cent of the \$500,000,000, or \$48-  
200,000, according to Ketcham's fig-  
ures.

An analysis of these calculations  
shows that the manufacturers' tax  
would cost Pennsylvania approxi-  
mately 12 per cent more than would  
the collection of needed revenue  
through income and corporation  
levies.

Ketcham bases his estimates upon  
figures of the census bureau and bu-  
reau of internal revenue.

## BOLD ROBBERIES RECALLED BY EVENTS IN NEW JERSEY TOWN

(Continued From Page One)  
brought him back to this city. Most  
of the stolen valuables were recov-  
ered.

Sentenced To Prison  
Cowan secured counsel and on  
February 4, 1932 pleaded guilty con-  
fessing to charges of burglary, break-  
ing and entering and robbery in  
both instances, being sentenced to  
not less than 4 or more than eight  
years to the Western Penitentiary  
on both charges. The sentences did  
not run concurrently as often oc-  
curs but when one was completed,  
he was to serve the other.

When he escaped last July he had  
served nearly three and one-half  
years of his combined terms. That  
he was a professional, was indicated  
by the fact that he had cut the  
telephone wires to the Hoyt homes  
before attempting to rob them. Lat-  
er it was found that he had pur-  
chased a hammer in a local five and  
ten cent store, which he used in his  
robbing of the homes.

When arrested he claimed to be  
from the west, but his actual place  
of residence was never definitely  
determined. It was established that  
he had been in Brooklyn, N. Y.,  
shortly before coming here.

Among his possessions was a re-  
ceipt showing the shipment of a  
package from that city to Scranton,  
Pa. The police here secured the re-  
ceipt and had the package forward-  
ed here. In it was a valuable man's  
fur coat, which the police were con-  
fident he had stolen in some rob-  
bery in the east.

The system of body measurements  
by which criminals are identified was  
invented by M. Alphonse Bertillon of  
France, and was first used in Paris  
in 1880.

red, white and blue stripes is worn  
stock fashion, while a blue sailor  
hat introduces the newest millin-  
ery whim.

penguin sleeves lined in black crepe-  
backed satin.

suit of black silk in a rough weave

and white ensemble which employs  
a fashionable scarf tied loosely at  
the throat.

in yellow and brown tones. A large  
square of crepe, lined with material  
painted in the rose motif is draped  
cleverly about the shoulders creat-

Lehlbach's amendment was adopted  
by a teller vote, 149 to 145.

The vote on the Lehlbach amend-

but could not be construed as a test.

The house accepted an amend-  
ment of Rep. O'Connor (D) of New  
York, exempting malt syrups sold  
for manufacture of malted milk and  
medicinal uses. The bill already  
had exempted malt syrup for bread  
baking.

An amendment of Rep. Glover

was also adopted by the vote of  
126 to 110.

## Expect Trouble In Reopening Of Ohio Coal Mines

Ohio National Guard Head  
Reports Situation To  
Gov. White

TROOPS READY TO  
ENTER FIELDS

Operators Will Attempt To  
Reopen Mines Next  
Monday

(International News Service)  
**COLUMBUS, O., Mar. 24**—Se-  
rious fighting may be expected in  
the Hocking valley coal strike when  
operators again attempt to reopen  
their mines next week, Adjutant  
General Frank D. Henderson in-  
dicated today after an airplane trip  
into southern Ohio.

General Henderson, head of the  
Ohio national guard, reported to  
Governor White, however, that there  
is no need to send troops into the  
coal fields now.

**Situation Unchanged**  
Despite reported sniping yester-  
day in a minor outbreak of guerrilla  
warfare, the general declared "the  
situation remains the same."

"I do not anticipate any serious  
disturbances until effort is made to  
reopen the mines again," the gen-  
eral added. "I do not know definite-  
ly when that will be, but the oper-  
ators have promised to notify me in  
advance of their plans."

The general indicated that he has  
not yet decided whether some spe-  
cial precautions will have to be  
taken in advance of the attempt to  
send non-strikers back to work.  
That will be worked out in the next  
few days in view of new develop-  
ments, he said.

**May Use Planes.**  
Henderson's trip disclosed that  
serious thought is being given to the  
use of airplanes in the vicinity of  
Athens and Nelsonville if it becomes  
necessary to summon out troops.

On yesterday's trip, Capt. Fred L.  
Smith, new state director of aeri-  
autics, attempted to find landing  
fields in case it becomes necessary  
to make hurried flights.

The seriousness of the situation  
has been heightened Henderson said,  
due to the addition of 1000 Eastern  
Ohio miners to the strike ranks yester-  
day.

**8,000 On Strike**  
A joint meeting of scale commit-  
tees of miners in Southern and Eastern  
Ohio was scheduled today in  
Bellaire when it was expected more  
Eastern Ohio miners would join the  
walk-out. The total now on strike is  
8,000.

A proposal by the Hanna Coal Co.  
and the Ohio-Pennsylvania Co., to  
cut wages caused miners at Dillon-  
vale mine No. 1, Piney Fork mines  
No. 1 and 2, and the Bergholz mine,  
to walk out yesterday.

Henderson was unable to verify  
reports of sniping yesterday, al-  
though a company guard was said  
to have fired a round of ammuni-  
tion at a man who shot at him from  
a hidden spot.

**Miners Are Quiet.**  
In the other fields the miners re-  
mained quiet, according to reports  
received at Ohio National Guard  
headquarters. Fifty-five men went  
back to work in the New Philadel-  
phia field at the Wolford mine, and  
though 75 strikers picketed the prop-  
erty, there was no disturbance.

R. L. Ireland, vice president of  
the Hanna company, which operates  
several eastern Ohio mines, in a  
statement issued yesterday said the  
strike "is a death blow to the eastern  
Ohio coal industry," adding that  
Ohio operators are unable to supply  
markets which have been built up  
for many years.

There are approximately 1,000,000  
square miles of lake and river sur-  
face on the land of the earth, and  
1,910,000 square miles of islands in  
the seas.

Red snow is found in many places,  
among them the Forbidden Plateau,  
on Vancouver Island, British Colum-  
bia. It is due to the presence of in-  
numerable microscopic plants.

## In Tax Battle

Two prominent figures in the great  
tax battle now being waged in  
Congress are shown above. Upper  
is Representative La Guardia  
(R.) of New York, leader of the  
fight against the proposed sales  
tax. Lower is Representative  
Charles R. Crisp of Georgia, chair-  
man of the Ways and Means Com-  
mittee, author of the bill which  
proposes to double the present 20  
per cent tax on estates over \$10-  
000,000. Crisp also offered an  
amendment to the sales tax bill to  
exempt foodstuffs, farm imple-  
ments and medicines.

## Infant Is Burned To Death In Fire

(International News Service)

**PITTSBURGH, Mar. 24**—Baby  
Dolores Swiner, 14-months, was  
burned to death Thursday a few  
moments after she gleefully cooed  
and wriggled her tiny fingers over a  
"fire game" started by her three-  
year-old brother, Albert.

Scattered ashes from an open coal  
grate to the charred crib told the  
story. Albert asked a burning stick  
into the baby's bedclothing, police  
said.

## Fallen Millionaire Ill

Little hope is held for the recovery  
of Josiah V. Thompson, 78-  
year-old former coal baron and  
banker, confined in a hospital at  
Uniontown, Pa., as the result of  
an apoplectic stroke. Although his  
wealth totalled \$70,000,000 two  
decades ago, Thompson was de-  
clared bankrupt in 1915. Later he  
spent eight days in jail for failure  
to repay sums as ordered by a  
court. He has been a re-  
cluse in recent years, occupying  
only one wing of the now shabby  
mansion in Uniontown where he  
once entertained so lavishly.

London, Mar. 24.—"The cry of  
"war" was raised in the House of  
Commons on the Irish question  
again this afternoon.

Supporting a measure asking gov-  
ernment assurance that no impor-  
tant step be taken in the Irish issue  
without consent of parliament, Rep-  
resentative James Maxton, left wing laborite  
leader, said:

"The British government has re-  
plied to De Valera by making what  
we regard as a declaration of war  
which can only be backed up by  
force."

De Valera's threat to abolish the  
oath of allegiance and withhold the  
Irish land annuities came before the  
House on a motion to adjourn for  
the Easter recess.

George Buchanan, Scottish labor-  
ite, raised the Irish question by de-  
manding that the government give  
full assurance "that no serious  
step be taken which might embroil  
Britain and the Irish Free State  
without consenting commons."

In supporting Buchanan's mo-  
tion, Maxton maintained that De  
Valera had taken a step for which  
he had received a mandate from the  
people in the recent elections.

## Junior P. H. C.

The Junior P. H. C. met Wednesday night for the regular session of business and a social time. Games were played and the contest prizes were won by Arthur Cowles, Billy Grove, Tommy Boyd and Lemuel Wine.

Later in the evening they retired to the dining room where places for 30 children were prepared at a large table decorated with favors and colors suggestive of the Easter season. A large rabbit was an attractive center piece, with small rabbits as individual favors.

A most delightful lunch was served and when leaving each expressed their keen enjoyment of the evening.

On Wednesday evening, March 30 at the same place, the Knights of Malta hall, there will be a 500 and bingo party given for the benefit of the juniors.

## MRS. A. HARBISON HOSTESS TO CLUB

A beautifully appointed 1 o'clock luncheon featured the meeting of Circulating Book Club members held Wednesday afternoon at the home of Mrs. Albert Harbison on East street. The guests were seated at individual tables prettily appointed in tones that would well remind one that Spring is here, where a delicious menu was served. Places marked for twenty-six guests including nine visitors. Mrs. A. R. Henry of Barberton, Ohio, and Mrs. Ida Hamilton of Phoenix, Arizona, were out of town guests who had the pleasure of participating.

The hours that followed were spent informally with fancy work, chat and radio music.

## KOCH'S PRICELESS GIFT TO HUMANITY

PRESIDENT HOOVER, in his proclamation calling on communities to observe the fiftieth anniversary of Robert Koch's discovery of the tubercle bacillus, very properly calls it "a priceless contribution to human welfare." The golden jubilee of the finding of the tubercle bacillus on March 24, 1882, is being celebrated throughout the world, and it is fitting that it should be given due recognition in the United States. In the period since the announcement of this discovery the death rate from tuberculosis has been reduced one-fourth "and the search for a specific cure, as yet undiscovered, goes steadily forward along the lines mapped out" by Professor Koch.

Robert Koch had done important work as a bacteriologist in Germany before he announced the discovery which startled medical circles in 1882. After that he was made director of the cholera commission to India and Egypt. In 1905 he was awarded the Nobel prize in medicine. The following year the German government sent him to investigate "sleeping sickness" in West Africa. He had many other notable accomplishments to his credit, but he is now chiefly remembered for the great work he did in helping to stamp out the "Great White Plague." It would be difficult to improve upon the tribute which I paid to him in the proclamation of the president. "The steps he took to prove his opinion and the clarity with which he explained these steps make his report not only a classic in medical literature, but established a technique in medical research that ever since has been a boon to civilization in its fight against disease."

It is well to pause to pay tribute to men of this kind.

## "SOAKING THE RICH"

Some congressmen have always felt that corporations make too much money and pay out too much in salaries. Therefore the clamor for higher surtaxes as a federal budget leveller.

This delusion is not likely to survive the present session of congress, upon which is being forcefully impressed the instability of private and corporate income and the unreliability of the income tax in a major economic crisis. The income has ceased to be the magic fountain from which all blessings come.

Congress has been passing some anxious days since the tax returns for 1931 incomes were filed, and more anxious days are in store as the treasury department, pouring through the returns, finds their revenue productivity far below that of last year, when it fell off to a degree that staggered the treasury and congress.

Not only have the returns of corporations and persons of large income fallen off, but unless business soon improves many heavy defaults in income taxes are certain.

Optimists in the treasury predicted a 25 per cent decline from the income tax totals of a year ago. Returns for the first quarter indicate a much greater drop. The only trouble with "soaking the rich" is that most of the rich are proportionately as hard up as the others.

## REAPPORTIONMENT IN COURT

There is now before the United States supreme court a question of considerable legal and political importance. Raised in the states of Minnesota and New York, it is the question whether a reapportionment bill requires the signature of the governor or can be vetoed by him. Two appeals test the right of a legislature to reapportionment representation in congress without the approval of the governor.

In Minnesota Governor Olson refused to sign a reapportionment act passed by the legislature. In New York the legislature resorted to reapportionment by concurrent resolution to forestall a veto by Governor Roosevelt.

The Minnesota supreme court has ruled that the governor has no voice in the matter of reapportionment. In New York the court of appeals held that the governor's signature is necessary. When the question was raised in Missouri by a gubernatorial veto the state supreme court decided as the New York tribunal did.

Every state is interested in these tests suits, because in theory at least all are supposed to reapportion their representation in congress after every decennial census and litigation may change the result of elections and alter the complexion of the lower branch of congress.

The surprising feature of the situation is that such obvious legal questions never arose before to be decided for all time.

## A YEAR FOR SPORTS

The sports calendar lists for 1932 not one but four major competitions in addition to minor international contests. It is the big year for sport, the circus of athletics being bigger and better than ever.

The quadrennial Olympic celebration at Los Angeles, the first world-wide Jewish games in Palestine, the Irish Olympics, or Taitteann games, at Dublin, and the soviet "Spartakiade" or "Anti-Olympics" at Moscow make the four major events of this most eventful year.

Los Angeles has the show oldest in tradition, for while the modern Olympic games were first held in Athens in 1896, they revived Grecian contests of strength, skill and speed, the origin of which is lost in antiquity. But the Taitteann games are not entirely without tradition, Hugh the Long Arm having inaugurated them 600 years ago in honor of the beautiful Queen Tait.

The Jewish and soviet contests will be held this year for the first time. Many nations will be represented at the meet in Palestine and 10,000 foreigners will be invited to the Moscow games, which will celebrate the completion of Russia's five-year plan of industrialization. The Los Angeles Olympics alone of the four will ignore the cultural side of life and devote themselves entirely to the physical.

While the world of today is not exactly oblivious to the call of sports, that call will exert a stronger appeal as a result of the grandstand play the realm of sports is making this year. After passing through such orgies of athletics mankind could not help being more sports conscious.

Perhaps that improved mechanical man of a Boston inventor could solve the tax riddle for congress.

If American politicians hear that the Moscow Olympics this year will include politics, they will convert the marathon of the Los Angeles Olympics into a presidential run.

We can't agree with the anthropologist who claims woman through the ages has changed less than man. What about the transfer of her affections from cave men to crooners?

After Telling a Lie  
Was It Necessary?  
What Is a Lie?

By MARSHALL MASLIN

I'd just finishing telling a lie. And for some minutes I sat there waiting for the "reaction." . . . You know, waiting the way you do when the doctor sticks some vaccine into your arm and you wait to see it swell up and hurt and look all red and ugly.

No reaction at all. Not the tiniest bit. My conscience showed as clear as if I'd never told a lie in all my born days.

You see, a man I know had just asked me a young couple I know were going to get a divorce already.

Well, it wasn't any of his business. If there was any gossip there and I knew it, as it happens I would, it didn't belong to him. He wasn't any old friend. He wasn't an expert on married psychology. He couldn't help them by knowing. He was just nosy, curious, just wanted to know.

So I lied. I drew the long bow and explained with convincing detail just how happy those two young people are. I proved to him—absolutely—that those two didn't even dream of divorce.

Back in Sunday school, long time ago, I was taught that it was a terrible sin to lie. My teacher said small boys who lied never got to Heaven. The Heaven she talked about didn't have any bicycles or sleds or fishing pools, or other advantages of the sort, but such as it was, it wouldn't be mine if I told lies.

There I had just learned to lie, just gained that sense of power a person feels when he discovers he can twist the truth and make people believe it—and she told me it was wrong.

But I've just lied and it doesn't hurt a bit. And suddenly I remember the definition of a lie that I heard from a college professor. He smiled cynically once and explained that "a lie is withholding the truth from someone who has a right to know it."

A lie is telling a sick man he is well when he has a right to know he is ill. It is telling a well man he is sick when he has a right to know he is well. It is telling a traveler the wrong road to his destination. It is telling a purchaser that his purchase is perfectly safe—when it isn't. It is telling people that human beings are wicked when they are good, good when they are wicked.

Telling the truth to a gossip is worse than a black lie; telling a lie to a gossip is better than the lukewarm truth.

Guess that's why my conscience didn't hurt me.

### HOW DO YOU TREAT HER?

Do you have a foreign born girl employed in your home?

Do you treat her?

She is looking to see what better breeding and position has done for you in comparison with her experience.

By your attitude toward her do you make her feel friendly or antagonistic to you and toward the grade of society that you represent.

Your interest in her should go farther than that represented by her service.

Your interest should not end with paying her for her service.

If she is in a foreign land she often is homesick.

Away from relatives and friends she longs to talk to someone.

She would like instruction in the language you speak well.

It would not take much of your time to teach her when her work is done.

Why not divide some of the benefits derived from knowing how to speak and read the language of your country, by helping her to understand what is said to her and make a suitable reply?

It is a tragedy not to be able to understand and worse to be unable to make yourself understood.

DEADLY LOAFERS

The drug store and the soda joint have become loafing places for the youngsters. Which means that they are headed for the rocks.

When boys aren't working or studying, they must have some place to get together and kill time. And where two or three boys are gathered together, there the girls will be also.

You can't blame them. The ordinary town provides no gathering place for youth. There is no place to loaf except on the street corner or in somebody's place of business.

But the business place so honored is in hard luck. The youngsters have little money to spend. Their patronage isn't worth much. Yet any effort to drive them away might offend their families and relatives and thus cost the business most of its support.

They are a nuisance that must be endured in silence. But a nuisance they certainly are. They occupy chairs and tables and block the doorway and thus cause many a prospective customer to pass on. Many a business goes bankrupt because of them.

Some day, perhaps, merchants will learn the wisdom of providing a lazing place in the heart of town for the young people. The investment would pay handsome dividends.

WHO JUDGES THE NEW PRODUCT?

A group of men spent over \$100,000 trying to market an invention. Everyone who looked at the device predicted a brilliant and profitable future. Optimism was so persistent that whenever someone would come forward with more money.

The device was for use by people in humble circumstances. Every investor thought he would be a user if he were a farmer or villager.

The only trouble was that farmers and villagers didn't think the same way. They wouldn't buy it at any price; they wouldn't even take it on free trial.

The moral, which cost this writer \$4500 to learn, seems to be: (1) A prospective user is the only competent judge of a new product. (2) Producing what people want and not what they think they ought to have makes a business profitable.

Most People Like to Pay For Their Music, Which is the Reason That When a Girl Gets the Idea She Can Sing She Isn't Invited Out Much.

It is said that the sale of pretzels is many times more than when we had the soda parlors. A lot of people who never saw a pretzel except in a saloon cannot figure that out.

LOOKS LIKE ANDY GUMP, TOO BAD!

Among the major democratizing influences, special mention ought to be given photography.

Photography probably killed royalty as much as did any other factor. It is impossible to reverence a prince who looks like Andy Gump, or a queen whose photographs reveal a misshapen body.

Just as the first wonder when seeing a moving picture star "in person" is "How does he get away with it?" so the primary thought when seeing a news reel of royalists and statesmen is "God help the country." Photography, except in specially constructed studios where experts direct the taking, is brutally truthful. Much of the current criticism of state and national government may well be due to the fact that our big men are too often photographed to carry any illusion of imaginary greatness.

## Work On Willow Grove Bridge Not Delayed By Bill

Misunderstanding Regarding Bill Introduced By Congressman Swick

OPERATIONS CAN BE STARTED AT ONCE

A dispatch from Washington yesterday stated that the House of Representatives had passed the Swick bill to permit the postponement of construction of the proposed bridge across the Mahoning river at Willow Grove. The meaning of this bill appears to have caused some confusion here, but according to County Solicitor John P. Lockhart, it does not mean that work on the bridge will be held up.

Under legislation passed last year the State Highway Department was authorized to build the bridge, the work to be started not later than March 2, 1932 and to be completed not later than March 2, 1933.

The highway department went ahead under this act and recently let the contract for the bridge, but it could not be started before March 2nd. The bill which J. Howard Swick has introduced merely postpones the date on which work can be commenced until March 2, 1933, and the completion by March 2, 1935.

This does not mean, according to Solicitor Lockhart, that the state must wait until March 2nd, 1933, to start the bridge. It can be done any time before that date, and as the contract has already been let it is expected that the work will be under way soon.

## First Flour To Be Shipped Here Early Next Week

Secretary Potter Receives Word That 15,000 Sacks Will Be Sent

### DISTRIBUTION PLANS ARE MADE

Plans for the distribution of the first allotment of flour which is being sent here by the National Red Cross, are being made here today following receipt of word by Secretary Orville Potter of the Lawrence County Chapter, American Red Cross, that 15,000 sacks each weighing 24 pounds, will be shipped here the early part of next week.

The flour is being sent out by the American National Red Cross, under the plan to release surplus wheat held in storage by the government at various points.

This flour being sent here will come from Cleveland, O., and will be taken to the Carnegie Auditorium, from whence it will be distributed. The flour which will be allocated to Ellwood City under the local distribution plan will be handled by the relief organization in that city and it possible will be shipped direct to them.

Makes Further Inquiry

No definite date for shipping has been received and Secretary Potter is communicating with the Milling Company today to determine the date when the flour will leave the Ohio city. It is believed that it will be sent here by truck.

Burgess Jud Turner of Ellwood City has made arrangements with Shelby Tube plant officials to take care of the storage of the flour sent to Ellwood City, and the flour sent there will be distributed from this storage point in the mill.

The amount to be received will be equivalent to 2,000 barrels, and will be approximately two-thirds of the amount asked. The balance or 1,500 barrels will be received later on, it is believed.

New Castle will be among the first cities in the country to receive this flour, having been the first to ask

it, and will assist those in charge of relieving distress among the unemployed in a material manner.

### Will Relieve Committee

Flour has been one of the component parts of the orders given out by the Mayor's Relief Committee, and it will relieve the committee of the necessity of purchasing flour for some time to come.

Other communities in the county, outside Ellwood City, who have relief organizations, will get their flour at the central distribution point here, and handle the distribution themselves. The Bessemer and Hillsville districts have been hard hit by the depression, and will be allotted their share along with other districts.

This flour will last for several weeks, after which it is believed more will be received.

While no definite word in this regard has been received, it is believed that there will be no cost to the transportation of the flour here, as the railroads have promised their cooperation and it is understood locally that the first two million bushels will be transported by the railroads free.

## Easter Music In First Church

Thomas H. Webber Will Present Enlarged Choir And Juniors In Special Numbers

The program of special Easter music in the First Presbyterian church will be given Sunday at 4 p. m. when a chorus of twenty four voices will present Maunders' "Olivet to Calvary" under the direction of Thomas H. Webber, Jr., organist and director.

"Olivet to Calvary" is a most inspiring composition which recalls simply and reverently the scenes which mark the last few days of our Saviour's life on earth, and some of the reflections suggested thereby.

The religious of the multitude, the view of Jerusalem from the steep of Olivet, the lament over the beautiful city, the scene in the temple, and the lonely walk back over the Mount at night, are the chief features of the first part. The second part opens with the Supper of the Passover and the turning of the new commandment of love for one another.

From this the scene passes to the infirmity of the Garden of Gethsemane, the hostile crowd, the loneliness among ruthless foes, Pilate and the Judgment Hall, the passage of the Cross, the tragedy and triumph of Calvary.

The first permanent tooth to make its appearance in the mouth, according to the U. S. Public Health Service, is the six-year molar.

## Vacant Farm Land Near City Asked For Garden Plots

Approximately Twenty-Five Acres Sought By Red Cross Chapter

Request was made today by Secretary Orville Potter of the Lawrence County Chapter, American Red Cross, for vacant farm land handy the city, which could be used for gardening purposes by the unemployed men of the city.

Approximately 25 acres of ground will be needed for this purpose to furnish persons who live in the city and have no ground adjacent to their homes available.

Seeds have already been received and are being held awaiting the coming of planting weather. It is possible that more will be needed than have already been received, and an effort will be made to secure these seeds later on if the need is shown.

The big thing at the present time, is to secure the needed ground. It is believed that there are a number of vacant plots near the city, easy of access, which could be secured for gardeners.

Any person who can assist in this request is asked to call 5384.

John G. Jones  
Retires Today

Leaves American Sheet And  
Tin Plate Company After  
Long Service

After 38 years of continuous service in the iron and tin plate industry in New Castle, John G. Jones, of 316 East Boyles avenue, hot mill superintendent at the New Castle Works of the American Sheet and Tin Plate Co., retired on a pension today.

In honor of the occasion, the rollers from the New Castle works staged a little farewell celebration at the Shenango plant, where Mr. Jones has been located since the New Castle plant shut down shortly after the first of the year.

Harold Pyle, assistant manager of the New Castle Works, in behalf of the rollers, presented Mr. Jones with a wrist watch and traveling bag, and also presented a traveling bag to Mrs. Jones.

Mr. Jones had not expected to leave until the first of the month, but wished to spend the Easter holidays with his son, Jack Jones, who is a student at Staunton Military Academy, Staunton, Va., so he terminated his duties at the plant today. Mr. and Mrs. Jones will leave Saturday morning for Staunton, and will spend a week there.

"Johnny Jones" as Mr. Jones is familiarly known to the employees in the tin industry here started his career in the steel industry at what was known as "The Old Mill," which stood near the junction of the Neshannock and Shenango rivers, where he worked as a puddler.

From there, he went to the Greer plant, working as a doubler for a great number of years. He was later made hot mill foreman, and on the death of James Sadler, succeeded him as hot mill superintendent, in which capacity he has since been engaged.

He will be greatly missed by the men at the New Castle Works, all of whom wished him, good health and God speed on his coming trip, and during his future years, when they gathered to honor him at the plant this morning.

## School Board Is Asked If Contributions Would Be Taken If Offered

Because they felt that some further investigation in the matter was necessary, the committee appointed by the senior high school last week did not appear before the special meeting of the school board Wednesday evening. One of the members of the committee, Attorney J. Elder Bryan, appeared and discussed the question with the board somewhat.

"I would like to ask the board," said Mr. Bryan, "whether it would accept any contributions if such were offered?"

President D. B. Woolcock, "I cannot say. The board has taken no action upon such an idea as yet and until we have some idea as to what sized contribution it would be, whether it would be in lump sum or in payments, we cannot express any opinion."

Mr. Bryan, "The proposition has been made that the teachers be asked to contribute but if the board would not accept any such contributions, it would be futile to go any farther in the matter."

Mrs. Elliott, "Wouldn't the board have to know how much was to be offered before it could take any action?" And further, what part of the school system that is being discontinued temporarily would be expected to remain?"

Mr. Bryan, "I am not asking you to say what part of the school system would be retained, all I am asking is whether or not the board would accept any contributions."

Mr. McIlvenny, "If this board were offered a sum of money could it refuse it?"

Mr. Woolcock, "Yes it could refuse any gift if it saw fit to do so."

Mr. Hazen, "I cannot see that it is up to the board to set any fixed sum. As to what part of the system would be kept that would be a question to work out. The question as to what will be continued lies solely with the teachers."

Mr. Bryan, "What we would like to know is whether or not the board would accept contributions if they were offered?"

Dr. Cleland, "We will soon have to know what is going to be done, I would imagine."

Mr. Hazen, "Couldn't you get some expression from the teachers as to what they would do?"

Mr. McIlvenny, "Have you any assurance that anybody else will contribute, or do you expect the teachers to assume all the burden?"

Mr. Hazen, "Under the law the board would have the say as to what part of the system would be saved and what would be discontinued. There is this possibility, that the people who contribute might want to have something to say."

Mr. Duff, "I think it would be

unusual for the board to refuse any contributions, but the board must reserve the right to use the money as it sees fit, if the contributions are to be made. It would be with that understanding only."

Mr. Hyde, "Would it be out of the road if we expressed our opinion as to what we would do if the money were offered? If sufficient money were offered I can't see what harm there would be in expressing ourselves. I would hate to have anyone feel that we wouldn't go along if money were offered to save these departments. I am willing to express myself."

Mrs. Elliott, "Supposing there were sufficient money offered to open the trade schools and not the domestic science departments. Wouldn't some people object to that? Do they expect to get enough money to operate all the departments that are proposed to be discontinued for a year?"

Mr. Bryan, "I am not arguing for the trade schools or any other part. Our only interest is the schools as a whole and we do not want to see any part discontinued. If the trade schools were continued, wouldn't it keep a lot of boys off the streets?"

Dr. Green, "Boys in the trade schools are eligible to attend any classes they wish, as they are within the legal age when we must provide schooling for them."

Mr. Bryan, "What I mean is this. If the domestic science departments were discontinued, the girls would be in other classes. If the trade schools were discontinued the boys in many instances would be out on the streets."

Mrs. Elliott, "It seems to me the board must go ahead and work out this problem after the matter of the contribution has come to the board."

Mr. Hyde, "I hardly believe the board would refuse any contributions."

This closed the discussion and Mr. Bryan left the board room.

"I was troubled with pimples that were scattered all over my face. They were red and hard but not very large, and disfigured my face. The pimples festered and itched and burned terribly, causing me to scratch. The trouble lasted over a year."

## Escaped Lepers Are Rounded Up

## SEARCH GOES ON FOR PATIENTS

(International News Service)  
MADRID, Mar. 24.—All but two of the 55 lepers who escaped from an asylum at Sonilles and terrorized the inhabitants of three neighboring towns were rounded up by civil guards today.

Search is continuing for the two missing patients, as well as for a number of other lepers who, it was disclosed, escaped from the Sonilles asylum some time ago.

The Madrid newspaper El Sol blamed the outbreak on the "spread of communistic ideas" in Spain. The newspaper suggested that Spain's four leper colonies be merged into one large settlement, where the sufferers would be restricted.

The newspaper recalled that a leper who had escaped from an asylum once accosted former King Alfonso on the street.

"Shake hands, Your Majesty," the leper demanded.

The former king unhesitatingly acceded, and then jumped into his car and drove like mad to the palace, where the royal physician applied antiseptics.

Randolph, a broker, well known both in New York and Philadelphia, is at present visiting friends in the south.

How the young woman got into Randolph's apartment was a mystery. Detectives found her hat, coat and purse in the bathroom of the Randolph apartment and one of her shoes on the window sill. At first they thought she had jumped from a window in the hallway on the fifth floor.

## Personal Conveys Wrong Impression

Some Person Gives Misinformation And Makes Self Liable For Same

There are those persons, who appear to take delight in giving information for publication in *The News*, which is not only incorrect but is deliberately planned to create a wrong impression about the persons whom it concerns. They forget, however, that in doing so, they make themselves liable under the laws of the state and country.

A recent incident of this kind was a personal published to the effect that Evan Jordan of Sharon, and Mrs. James Stoyer of Transfer, Pa., had been callers at the home of Mrs. Elizabeth Gibson of New Wilmington, one day recently.

In justice to Mrs. Stoyer, it must be stated that this was incorrect. She knows Mr. Jordan, who resides in Transfer and not Sharon as mentioned in the item, but he did not accompany her on this occasion or any other occasion. She was at New Wilmington for a couple of days taking care for her mother, who was sick. Mrs. Stoyer is at loss to understand why any person would put in an item like this.

## Spectacular Stunts In State Politics Are Past History

(International News Service)  
HARRISBURG, Mar. 24.—Plans of the State Republican organization for the spring campaign do not include any of the old-fashioned, spectacular stunts, General Edward Martin, the Republican State Chairman, said today.

In General Martin's opinion, the "medicine show" days of politics have passed definitely. Candidates for places on the statewide ticket will fill a number of speaking engagements before the primary, but few meetings with the entire personnel present will be held.

Following the custom of the organization, the sitting judges of the superior court who are candidates will not be expected to take any part in the campaign. The organization is backing Judges Robert Gathrop and William Parker and former Lieutenant Governor Arthur H. James.

Watkins, supt. of the City Rescue Mission; 2 to 3, Rev. R. J. Fredericks; 3 to 4, Rev. H. G. Woodrow; 4 to 5, David S. Williams, moderator of the Beaver Baptist Association. There will be no service at the noon hour.

The prayer services are open to the public at large and all denominations.

### EDITOR NEWS,

Dear Sir:—  
In the News of March 17, Frank Coen, game protector for Lawrence County advises auto drivers to be extremely cautious not to run over rabbits on the highway. If you see a rabbit ahead, slow down, stop, turn out and give bunny the right of way. Mr. Coen says "The loss of one female rabbit may mean 10 or 12 less rabbits to shoot. Does Mr. Coen know that it may also mean 10 or 12 less rabbits to destroy gardens, young orchards and fruit trees. In recent years rabbits have done much damage to young trees and gardens, and game officials have added to the trouble by turning rabbits out on farms without the owner's permission. If Mr. Coen doubts these statements we can give him proof if he will take the trouble to drive out. Mr. Coen makes the threat that "Dogs chasing rabbits will be shot." We have a dog that for several years has kept the grounds around the buildings clear of rabbits. If Mr. Coen thinks it his duty to shoot "Andy" for protecting our growing crops from being destroyed by rabbits, we advise him to not do the shooting when the dog's owner is present. It might lead to unpleasant results.

## Three Hour Service In Trinity Church

Good Friday Will Be Observed  
With Devout Service From  
Noon Until 3 O'clock

Conforming with the annual custom, the Trinity Episcopal church will have a three-hour service Good Friday, beginning at noon and continuing through the three hours when Christ hung on the cross.

"The Joy of Good Friday" will be the unusual topic which will be the theme of the seven sermons of the seven last words of Christ from the cross. Rev. Philip C. Pearson, rector of the church, is the speaker of the day and will answer "What is the joy of Good Friday?" "How may it be ours?"

This service is not alone for members of the Episcopal church, but for any person who wishes to devote all or part of the three hours to a period of meditation, adoration and devotion.

Persons may enter and leave the service during the singing of the hymns, which will be familiar ones, such as "Rock of Ages," "Nearer My God to Thee" and "Jesus Lover of My Soul."

## NEEDS AND DESIRES

NOT the satisfaction of needs, but the gratification of desires is what keeps thousands of people poor and struggling all their lives. Money alone is genuine wealth. No other material possession in life is as useful. Nothing will take its place.

BEND all your energies to building up a Savings account, even at the cost of great self-denial. Sooner or later you will find that reward coming to you that comes only to those who have the strength to deny themselves the little luxuries of life in order to acquire that greatest of all life's necessities—money when you need it.

## Ann Harding And Husband Agree To Give Up Marriage

Fame Wrecks "Ideally Mar-  
ried Life" Of Famous  
Hollywood Couple

Harry Bannister Will Again  
Seek Fame That He  
Once Knew

(International News Service)  
HOLLYWOOD, Mar. 24.—Fame today had wrecked the home of the film colony's "most ideally married couple," Ann Harding, the wealthy film actress, and her husband, Harry Bannister, screen and stage actor.

Signing her name, "Ann Harding Bannister," to a letter to the press, the actress declared that "due to Harry's constant and generous effort to forward my interests, often at the expense of his own, he is gradually losing his identity, become a background for my activities, and looked upon as 'Ann Harding's husband'."

"We have decided that the only way for Harry to re-establish himself in his profession is to cut the Gordian knot, to set forth on his own, quite apart from me, and win his way back to the standing he enjoyed in the theater before this unfortunate situation in pictures has a chance to reach us and destroy the love and respect we have for each other."

Brief Statement.  
Bannister's statement was more brief. It read:

"During the 5½ years I have been married to Ann Harding, I have had the love, respect and devotion of the very great and lovely person who is my wife."

"Therefore, in order to preserve this in its entirety we find the apparently drastic course of divorce the quickest and best solution to our eventual complete happiness. There is nothing further that I can add to Mrs. Bannister's statement."

Tiring of playing only "bits" in pictures Bannister recently at his request obtained a release from his studio contract which called for a salary of \$75,000 a year. He will "free lance" in more important roles and hopes to leave soon for New York to appear again on the stage.

# About Goiter And Surgical Operations

Dr. Clendening Gives History Of Some Thyroid Cases

By LOGAN CLENDENING, M. D.

Does goiter ever get well without a surgical operation?

This, of course, depends upon the type of goiter. The simple forms of goiter in the great majority of cases get perfectly well without any treatment whatever. Sometimes some of them turn into another form, but this is relatively rare.

The large, hard nodular goiters do not respond to any kind of medical treatment. The use of iodine, whether taken internally or rubbed on the neck, has no value in their treatment, although this treatment is often prescribed, especially by irresponsible practitioners.

This leaves us with the form of goiter which produces symptoms of nervousness, staring eyes, and rapid heart action—called "exophthalmic goiter," and sometimes called "Graves disease," after the Irish physician who was one of its first describers.

We have plenty of evidence that a goiter of this type runs a definite course of about four years and eventually the patient gets well without the necessity of a surgical operation. For instance, among the earliest reports of this disease is that of a German physician named Basedow.

He wrote his descriptions of these cases before the days when surgery was perfected and before anyone had ever removed a thyroid gland by surgical operation.

Reading these reports with this in mind it is interesting to note that while Dr. Basedow did not understand the nature of the disease and he constantly reported that he thought his patients were going to die in every one of his case reports he notes that in the course of time the enlargements of the thyroid gland went down and all the symptoms of nervousness and heart trouble ceased. The doctor lived in a small town and the patients he described were fellow-townsmen so that he was able to observe them over a long period of time. This is a distinct advantage over many modern consultants who see patients from far away or who lose track of their patients in a large community.

Another proof of this will be

found in the life of the English poetess, Christina Rossetti. Her last biographer J. C. Squire notes that in 1871, when she was 41 years old, she began to be afflicted with the condition known as Graves disease. Her pictures indicate that this was the trouble. It is stated that for two years her life was in constant danger. Her biographer states that at that time little was known about the treatment of the condition. What he means principally, I suppose, is that no surgical work on the thyroid had been done that simply on palliative treatment and the use of rest and patience she got entirely well and did not die until 1894 at the age of 64.

Such histories show that it is possible with this particular condition for complete recovery to take place. It is, of course, admitted that in most instances the removal of the thyroid by surgery hastens the recovery.

EDITOR'S NOTE: Six pamphlets by Dr. Clendening can now be obtained by sending 10 cents in coin for each, and a self-addressed, stamped envelope, to Dr. Logan Clendening in care of this paper, or Central Press Association, 1435 East Twelfth street, Cleveland, O. The pamphlets are: "Indigestion and Constipation," "Reducing and Gaining," "Infant Feeding," "Instruction to the Treatment of Diabetes," "Feminine Hygiene," and "The Care of the Hair and Skin."

# "I agree with my Husband . . .

● "He says Chesterfields are milder . . . and he's right! They're so mild I can smoke as many as I like without bothering to keep track.

"And I find I never get tired of the taste. Probably that's because they're not really what you would call sweet . . . Chesterfields are just natural flavored . . . if you know what I mean.

"And have you ever noticed the paper? . . . Well, neither have I!

"That's certainly a compliment . . . to be able to say you can't taste or smell the cigarette paper.

"I think that's about as good a test for purity as anyone could possibly ask for. Chesterfields satisfy . . . that's one thing my husband and I agree on!"

Improved Teachers.  
These decisions were reached by the board of presidents of the state teachers colleges of Pennsylvania, meeting here. Dr. James N. Rule, state superintendent of public instruction, said improved teaching in the schools will be insured by the ruling.

The board of presidents also adopted a one-year rule for athletes, requiring a residence of one year for eligibility to participate in intercollegiate athletics and a one-year residence for students transferring from one teachers' college to another, as is now provided for transfers from other schools to teachers' colleges.

## WANT TO LOOK YOUNG?

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver. Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound as a substitute for calomel to act on the liver and bowels, which he gave to his patients for years. Dr. Edwards Olive Tablets are gentle in their action yet always effective. They help bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities. ## Weather Holds Back Trackmen

Squad Of 50 Awaiting Coach Lloyd's Word To Start Training For Track Season

ELLWOOD CITY, Mar. 24.—Coach Lloyd is still waiting for favorable weather to send his Ellwood high track aspirants in serious training in defense of their two titles, the Geneva Intercollegiate and the Beaver Valley crown. They are also keeping one hopeful eye on the state meet this year.

Twice already some of the athletes were forced to break training because of sudden change in weather. About 50 track aspirants have been handed out track equipment who are awaiting the word of Coach Lloyd to start serious training. But the weather conditions have no effect on the middle distance and mile runners who are training daily under the direction of Paul MacMurdo, king of the W. P. 1. A. L. half-milers, and now a member of the Pitt Freshmen team. These athletes are doing some cross country running and developing their muscles and wind.

Coach Lloyd has every reason to be jubilant over the track season outlook. Besides having a wealth of last year's team left he has some fine prospects in the new men out. Besides having excellent material for the hurdles, mile run, the 100 and 220 yd. dashes, there will be some good men for the 440, half-mile, and the mile relay. Lloyd's weight team is intact and are sure point gatherers. Ellwood high will be represented on track this season by one of the best balanced teams in its history.

## Pheasants Have Their Troubles Too: Some Get Snowbound On Farm!

Pheasants can "goose-step" right through deep snow and not mind it at all—but give them a windstorm and they are in a frenzy unless able to find shelter, according to V. T. Warfel, in charge of the state game farm near Harlansburg.

Cuddled together in a 20 acre field and protective gulley, nearly two thousand pheasants have been wintering at the propagation farm.

Although the farm covers over 300 acres the ringnecked game birds are penned together for the winter months in this part of the farm where they are protected to some degree from heavy windstorm and rain.

Snow and cold weather are no ordeals for the males and maidens of pheasanthood, but accidents will happen and make it possible for them to get just as sick of snow as did the doughboys of "gold fish" and "corn willie." Here is what happened during the heavy snowstorms a couple weeks ago.

Acting in the manner of highway storm fences, the high wire fencing around the area occupied by the pheasants caused high snow drifts to form against them.

Then the trouble began. The sly pheasants (but it worked out that they weren't so sly) decided that the cold and wind could very easily be avoided by mounting the snow drifts then dropping down to the

ground in the space between the drift and the wire fence. Dozens of them did that. And—

You guessed it. The drift closed over their heads and the pheasants were snowbound—and—*ho!* The game keeper and his assistant, Kenneth, went to work digging out pheasants. And what a job.

It was believed that all the birds were removed from their doorless igloos but, yes, sir, Mr. Ripley, four days later two pheasants emerged from a large drift. They had been buried there on a Monday and burrowed their ways through on the following Friday.

Each of the pheasants must have his or her feathers clipped three times a year, according to Game Keeper Warfel. The long flight feathers of one wing are shortened in order that the bird is not able to leave the farm by flying over the fencing. Just one wing is clipped so that the bird will be unbalanced in flight. If both wings were shortened the pheasant would still be able to escape from the pens.

"Lean-to" shelters have been erected at various parts of the winter plot, and there is quite an abundance of brush for protection. These shelters are used by all during storms—and they are greatly appreciated when the wind is moving a little too garulously.

### LOOKING BACK

IN NEW CASTLE

When recalling incidents of the past forty or fifty years in this city, the name of Frank M. Jones, former day sergeant of the city police force comes to mind and stands out prominently.

Sergeant Jones had many friends particularly among the seventh ward school children, now grown up of course, with whom he came in contact that serving in that section of the city as a police officer. He came to this city approximately thirty-nine years ago from Buffalo, N. Y. and with E. C. Barnes, the brother of his wife, introduced in this community the pump cans for those using kerosene to lighting and all purposes for which it was useful. They were making good with this business, when Mr. Barnes became sick and went to Knoxville, Tennessee to the benefit of his health, having a large bill posting concern in that section for a time, Barney McMillin, well known here was associated with Messrs. Jones and Barnes in their business of dispensing kerosene and heavy oils, which they purchased from J. J. Dean. Mr. Jones continued the business after Mr. Barnes left for a time but modern invention was doing away with oil for lighting purposes and the automobile was not a substitute in the use of oil and gasoline. One of the features of their sale of oils was the fact that Mr. Jones inaugurated the use of a red oil, it being the regular oil with a little red coloring matter in it, which the ladies used in their lamps on Sundays and special occasions, adding to the appearance of their lamps.

Mr. Jones and his partner gave cans free to those customers, who bought oil from them, but sold them where oil was purchased from others. After leaving the oil business, Mr. Jones was associated with the book keeping department of C. C. Robinson & Company. Then under Mayor Louis Haine he was appointed to the city police force. He was assigned to the seventh ward beat and became the friend of all the children of the district who came to know that he always had a bit of candy in his pockets for them. Mr. Jones was made a Mason in Buffalo, N. Y. and so of course when he came here, he soon affiliated with a local lodge, Mahoning Lodge, No. 343 P. & A. M.

He was also a member of the New Castle Consistory. He became a Mahoning lodge for some time. Before coming to this city, Mr. Jones had been cashier of one of the big department stores of Buffalo, N. Y. and later had been cashier of the United States Express Company. He had served some time as a patrolman on the New Castle police force, when Mayor W. H. Dunlap on assuming office named him as day sergeant at the police headquarters. He served in that capacity until his death a few years ago. He was an active

**WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL**  
And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine. For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It would pour out two pounds of liquid bile into your bowels daily.

If the bile is not flowing freely, your food doesn't digest. It just decays in the bowels and gas builds up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blotches. Your head aches and you feel down and out. Your whole system is poisoned.

It takes three good, old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the famous "Carter's" Little Liver Pills on the red label. Beware a substitute. 25c at all stores. © 1931 C. M. Co.

## New Castle Trade School Basketball Season Successful

Record Of 24 Victories And One Defeat Hung Up By Traders

Motsko, High Scorer Of Team, Llewellyn, Nigro And Ross Also High

New Castle Trade School basketball team after a lapse of four years returned to the floor this past season with one of the finest teams in the history of Ben Franklin and Trade School. They won 24 games and lost one. The team was coached by Emmett Gillespie. The team was without a doubt one of the finest in Western Pennsylvania school circles. The only defeat was at the hands of Midland High of the W. P. I. A. L. 32 to 31 after an extra period.

### Motsko High Scorer

Andy Motsko the tall center was the high scorer on the team with a grand total of 213 points with 95 field goals and 23 fouls. Next high scorer was Joe Nigro with 156 points via the medium of 67 field goals and 20 fouls. Third place was deadlocked between Jack Llewellyn and Nickie Ross with 155 points each. Llewellyn had 66 field goals and 19 fouls and Ross hung up 65 field goals and 25 fouls. Next closest was Dick Jones with 67 points. All in all a total of ninety-nine points on the squad took part in the scoring.

The Trade School team scored the amazing total of 873 points in 25 games, against 418 for their opponents. This was 35 points per game as an average for the Trade School and 15 points for their opponents. Motsko's points average nine per game according to the records.

### Jones-Ostrosky Dependable

Dick Jones and Brownie Ostrosky were the mainstays of the team at guard, it being their defensive work that saved the Trade School from defeat in a great many games. It also accounts for the low scores made by the opponents.

In that Midland game the Trade School boys played their heads off only to fall behind one-point. The locals led up until the final minute of play when Midland took the lead. The team as a whole was fast and accurate shots. Llewellyn and Nigro helped to keep the team together with Motsko flipping them in from all angles.

### Impressive Record

Coach Gillespie in commenting on the record hung up by the Trade School this year said "This has been my best year of basketball since coming to New Castle, and along with those ten straight grid victories last year it makes a record of 34 victories in 35 contests, which is good in anybody's league."

"In the four years that I have been here, my basketball teams at Washington, and Franklin High combined have won 73 games and lost 14. The football teams have won 27 victories out of 30 games played and this all makes a grand athletic total of 100 victories to 17 defeats.

An amusing incident is shown in the foul tossing of the Trade School team out of 234 tries the boys made 117 of them, which is just half any way you figure it.

Following is the record for the past season:

## Baptists To Play Wesley

Baptists Have Chance To Deadlock Epworth, A Loop Leader

### TWO OTHER GOOD GAMES ON DOCKET

Three basketball games are scheduled for Church league teams Friday night at the Y and as the championship play is scheduled to start Monday night the results of tomorrow night's contests will have a bearing on the titular meet.

First Baptist-Wesley M. E. game will be the deciding clash in the second half of the A loop race. Should First Baptists win it will deadlock the First Baptists with Epworth M. E. for first place.

Should this occur they'll have to go through a play-off for the privilege of opposing Wesley for the championship as the latter captured the championship of the first half. First Sacred Hearts, B division leaders will play the First Baptists. To go through the second half without a stain the Hearts will have to win over the Baptists.

St. Johns and Temple Israel, B loop teams, now deadlocked for third place will have their fling also Friday night. As the competition in all places is keen a big crowd is anticipated.

## Elmo Helped To Popularize Game

Antics Amused Fans And Kept Them In Good Humor

### FARROW PROVED "BATTLING MATE"

Elmo the Mighty! Through as a fighter but an ex-batter who's face should be recognized as an 'admission price' to any boxing show here.

During the past few years Elmo accomplished considerable toward increasing the popularity of ring tilts in the vicinity.

Today he has the rank of a non-combatant. Times are tough. Two years ago he could secure a purse for the asking.

"I'd like to fight" was all he needed to say. And 'on he went, generally in a four rounder.

By the time the first round was over the fans were in a pleasant frame of mind.

In other words his style, antics put the crowd in a frame of mind that generally lasted throughout the show.

He fought opponents from McKeesport, Franklin in fact all of the cities in the tri-state section.

He was a clownish style of fighter but he never failed to please—and that's saying something.

Then came a battle at Casewell Park. Elmo laid his opponent low. In those days he was just Elmo.

The Armory A. A. sprouted and Elmo gained popularity. His victories earned him the appendage "the mighty."

He was going along like a house on fire until unknowingly the Armory let a "ringer" be run in on Elmo.

It was one "Mr. Stein." He leaped across the ring, struck Elmo in the eye.

## Carnera Kayoes Cook In Fourth

(International News Service) LONDON, Mar. 24.—Primo Carnera, giant Italian heavyweight, who knocked out George Cook, Australian veteran, in the fourth heat of their scheduled ten-round bout here last night, had a flock of bruises to-day as souvenirs of the scrap. "Da day" absorbed a beating about the head and body before he was able to put his man away.

After being dropped to the canvas for a count of three in the first round, and again after being floored for a count of six in the third, Cook for a count of five and drove the Italian to the ropes. In the fourth, however, Primo felled Cook for a count of nine with a right to the jaw and then sent the Australian crashing through the ropes for a knockout.

## HERE AND THERE IN SPORTS' LAND

It did not take long for Primo Carnera to drop a ponderous fist on George Cook last night at London. It took him only four rounds. George was in bad shape after the knockout, according to reports from across the Atlantic.

Charles R. (Chick) Davies, Duquesne U. basketball coach has signed a new contract for a period of two years.

Spinnella recreations of Brooklyn topped the score on the opening team shift of the American Bowling congress tourney at Detroit with a total of 2,683 pins.

U. S. clinched victory in its team duel with France at New York when Frank Shields, New York beat Christian Bousquet, France in three sets, 6-1, 6-4, 10-8.

Charles F. Daniels, one of the original National League umpires and credited with starting Connie Mack on a league career passed away in a Norwich, Conn., hospital yesterday.

Mrs. O. S. Hill, Kansas City played to a two score lead when she turned in an 81 for the women's mid-south golf championship on South-east Pines, N. C. course.

A story from Los Angeles says Jess Willard contemplates a return to the ring for exhibition bouts. Recently the story goes, Jess admitted his various real estate and other ventures had failed.

Fifth annual Beaver county tournament will start Friday and Saturday. The list of entries is not as large as last year. The tourney is sanctioned by the A. M. A. and A. A. U.

Among the new boys reporting are Fred Shelloz, Deep Habib, Tomello Rocco, Joe Howley, Jack Armstrong, Robert McMichael, Walter Kussman, Willard Martin, Charles James, Israel Solomon, Tom Joyce, John George, Russell McConahay, Leroy Myers, Carl Custer, Albert Laurel, Walter Small, Frank Reed, William Martin, Glenn Hileman, William White, Louis Scarazzo, Walter Perchovich, Jack Hitchen, Clyde Calazza, Tom Stevenson, Angelo Piccerillo, Joe Cherry, Louis Rocco, Joe Young, Tony Colalucia, Frank Humphrey, Rufus Roberts, Frank Shook, Roger Seimone, Frank Cozza, Humbert Gianni, Don Burley, James Snyder, Carl Ambrose, Ralph John, John Kiefer, John DeMonaco, Louis Sorto, George Kierman, Lester Lebo, Vincent McDermott, Henry Unger, Robert McDermott, Robert Cayan, William Bumbaugh, Zedaker Cassius, Louis Posivack, Don Hackett, Carl Horazal.

Twenty-Seven Hopefuls. If quick glance count for anything there are about 27 of the aforementioned youngsters who are going to get a lot of attention from Coach Bridenbaugh and his able assistants, George "Gig" Thomas and William "Bill" Klee, when the training period sets under way.

Coach Bridenbaugh in a brief talk to the boys made it plain that there are 11 positions open on the new Castle high grid team this year and that everyone is going to be given a chance to make the grade. With a likely looking bunch of huskies there should not be much difficulty in picking a strong line. The last year's line was rather well depleted by graduation and dropping from school.

Blackboard Drills. If the weather is too bad next Tuesday to shove off on the outdoor drills, Coach Bridenbaugh has planned a series of blackboard drills for the boys in the warm confines of the school.

When the cone rings for the spring come and in the fall it will find New Castle high ready to give the other schools in the district something in the way of stiff competition.

## HIGHLIGHTS OF HISTORY

By J. Carroll Mansfield

George Washington  
No. 34. Forbes' Expedition

STRANGE TO SAY, ALTHOUGH FRANCE AND ENGLAND HAD BEEN FIGHTING IN AMERICA SINCE 1754, WAR WAS NOT OFFICIALLY DECLARED UNTIL 1756.

IN THE SPRING OF 1758 THE EARL OF LOUDOUN, WHO SUCCEEDED SHIRLEY AS COMMANDER-IN-CHIEF OF THE COLONIAL FORCES, SENT AN EXPEDITION UNDER GENERAL FORBES TO CAPTURE FORT DUQUESNE.

FORBES' FORCE WAS COMPOSED OF THE FAMOUS BLACK WATCH HIGHLAND REGIMENT, THE ROYAL AMERICANS, SOME PROVINCIAL RIFLEMEN AND A SMALL BAND OF CHEROKEES.

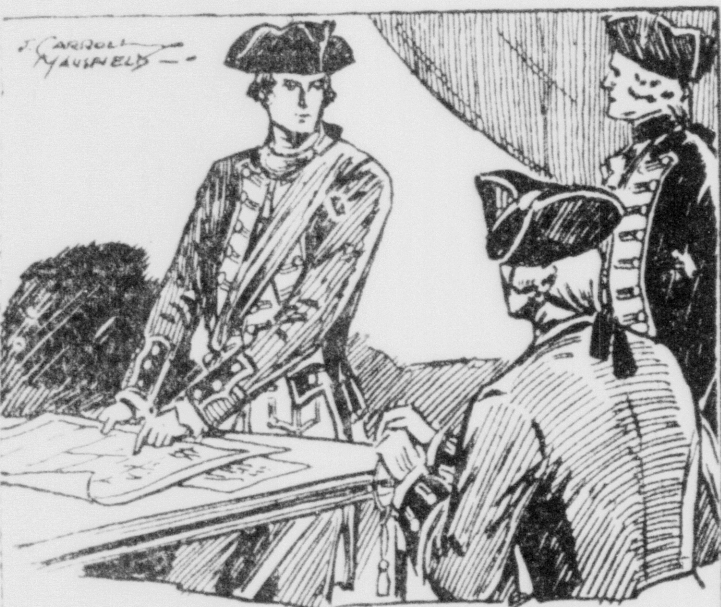

COLONEL GEORGE WASHINGTON ACCOMPANIED THIS MOTLEY LITTLE ARMY WHEN IT BEGAN ITS LONG MARCH THROUGH THE TRACKLESS WILDERNESS TO FORT DUQUESNE IN MAY, 1758.

THE ROYAL AMERICAN REGIMENT WAS COMPOSED LARGELY OF PENNSYLVANIA GERMANS AND WAS LED BY COL. BOUQUET, A SWISS.

IN THEIR RED COATS FACED WITH BLUE AND PIPED WITH WHITE, RED WAISTCOATS, BLUE BREECHES AND LONG WHITE GAITERS THE ROYAL AMERICANS MADE A STRIKING APPEARANCE.

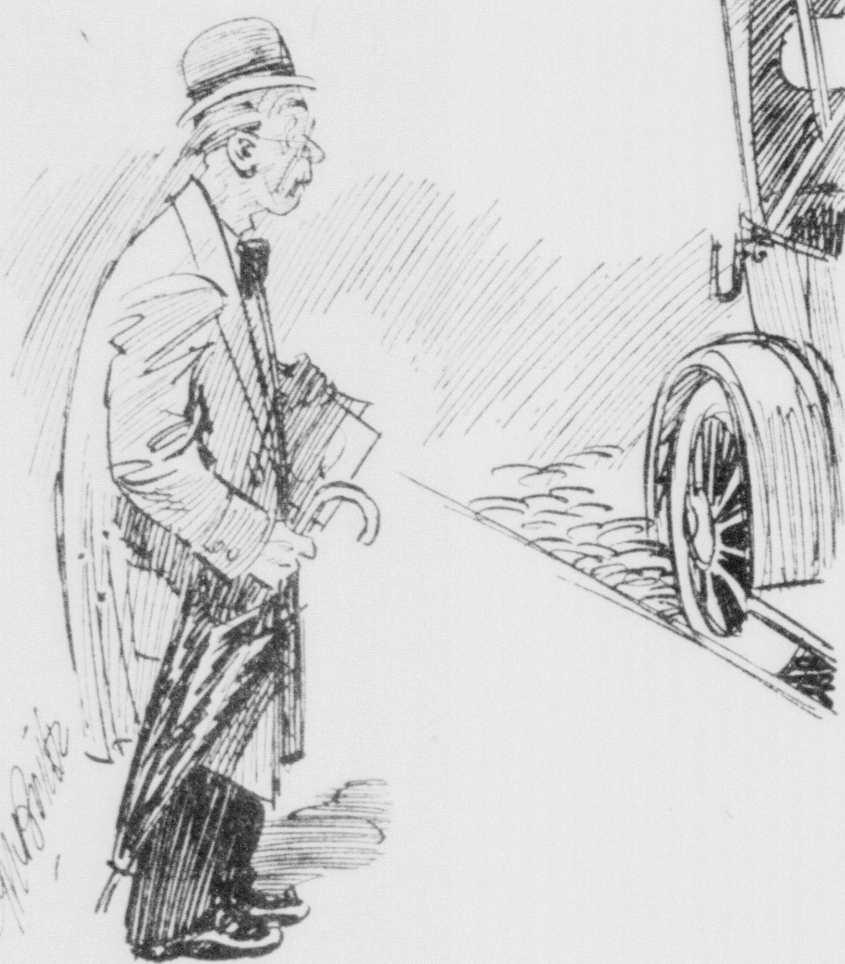

GENERAL FORBES WAS A SICK MAN WHEN HE STARTED. ON THE MARCH HE BECAME SERIOUSLY ILL, BUT GAMELY REFUSED TO TURN BACK, AND HAD HIMSELF CARRIED ALONG WITH THE ARMY IN AN IMPROVISED LITTER SWUNG BETWEEN TWO HORSES.

MUCH OF THE RESPONSIBILITY OF THE CAMPAIGN RESTED UPON WASHINGTON'S YOUNG SHOULDERS. IT WAS HE WHO PLANNED THE LINE OF MARCH AND DIRECTED THE MEASURES TAKEN TO PREVENT THE ARMY FALLING INTO AN AMBUSH.

# NEW YORK STOCKS

## Strength In The Oils Is Market Feature

(International News Service)  
NEW YORK, Mar. 24.—Strength in the oils, which spurred from 1 to 2 points on the advance in Mid-Continent crude prices, failed today to lift the stock market out of its rut.

Standard of New York rose more than a point on heavy volume and Standard of California nearly 2 points. Low-priced oils joined the

advance with Continental Oil being taken in large blocks at advancing prices.

The feature in outside markets was a spurt in Sterling, which jumped more than 5 cents here and nearly as much in London. Bonds were steady and dull. Commodities improved, with Wheat working higher and Cotton showing a better tone after yesterday's weakness.

### ELMO HELPED TO POPULARIZE GAME

(Continued From Page Fourteen)

Elmo's eye. The fight was stopped. Beef steak later was applied.

The matchmaker who had not known previously who "Mr. Stein" was, learned later he was a veteran of preliminary battles.

When the Armory A. A. became passe and the Bowl leaped into life with its big crowds Elmo became a preliminary ace.

He displayed an inimitable way of making fans laugh off any possible crutch they might harbor.

The fans went there not alone to see the "top shots" but also to see Clark dance, prance, punch, grin, duck and handspring.

He soon became the target for jealousy. Everytime he talked to a certain boy he received a dark look.

And that dark look distributor happened to be none other than Warren Farrow.

Challenges later flew and after they had fought once they fought twice and so on. The fans never forget 'em.

In fact one night when a semi-final fighter made an error and went to New Castle, Ind., instead of here, they were substituted.

The fans howled their delight that the Toledo fighter made a mistake in geographical destination.

When they could not fight each other, they were paired against other foes.

Nick Polis and Elmo had an argument and Farrow had a tangle with Chuck Taggart.

**Suffered Very Little.**

Neither took many shellackings. As a rule they were on the upper side of the argument.

One night a boxer scheduled for Elmo didn't show up but his manager brought along a substitute.

"Put him in with Elmo. He'll knock the whiskers off Elmo" he told the matchmaker.

"Ahem!" replied the latter "you're determined to put one of our drawing cards in it."

Visions appeared of Elmo prone on the floor and the fans shouting: "We want Elmo."

Elmo was appraised of the managerial boast: "Don't worry, I'll chop his knees from beneath him" laughed Elmo.

That lad was from McKeesport. Did Elmo chop the knees from beneath him? He certainly did in about two rounds.

Warren recently left for Baltimore vicinity. They say he is getting along.

Farrow by the way is also a tuba player and no doubt he fills in with orchestra between bouts.

Like Elmo he had his part in helping popularize the fistic game and should be able to smile his way into local scraps.

Latest reports from the stricken area place the death toll at 275 and the injured in thousands. Hundreds of families have been rendered homeless.

Miss Knox had a perfect score of 600 in the team firing

## Cornet and Curl Coiffure

One of women's knottiest problems is how to arrange the crowning glory in the most becoming manner. Here, Dorothy Jordan, screen player, gives her version of the ideal coiffure. It is a combination of cornet braid and curls. The braid forms a halo around the head, coming down the left side over the ear and pinned back on the right side. The soft ringlet line softens the knape of the neck and adds femininity to the face.

We can think of about a million things, offhand, that we'd rather meet on a dark night than the fearsome brute shown here. However, the gorilla is not as dangerous as he seems. This, the largest known specimen of gorilla, together with Lord Rothschild's collection of rare birds, the finest of its kind in the world and valued at \$400,000, is said to have been sold to the American Museum of Natural History at New York.

## Spring Idyll in Ballet

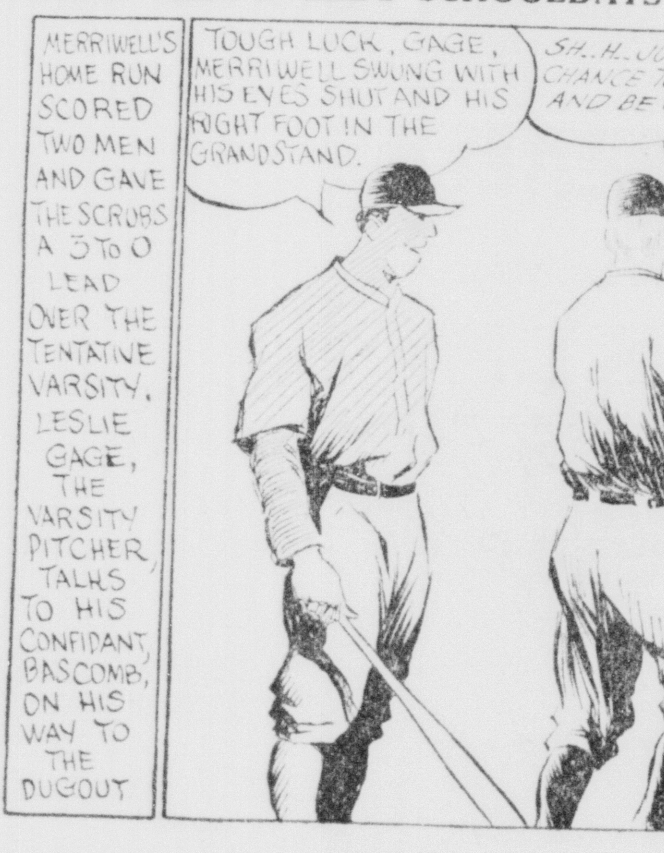

Lost in the ecstasy of the dance, these students at Barnard College, New York, present a beautiful picture as they put the modern theories of terpsichore into practice. These dances, now a part of the student curriculum, are under the direction of Miss Agnes Wayman, head of the physical education department, who believes that the modern style of dancing promotes strength, skill, grace and body control.

## New Senior High Athletic Council

School Board Makes Change  
In Control of High  
School Athletic  
Affairs

New Members of Board Are  
Appointed At Session  
Last Night

By action of the New Castle School Board on Wednesday evening at the special meeting held in the Administration Building, the present Athletic Council was abolished and in its place will be a Senior High School Athletic Council with a somewhat different personnel than it is constituted at present.

Walter Duff presented the following recommendation to the board which was adopted.

March 23rd, 1932  
To the Board of School Directors,  
School District of the City of New Castle.

Your committee appointed to investigate the financial condition of the High School Athletic Council including the proposition submitted by said Council with a request that your Board assume their outstanding obligations, has the following report to submit.

It was determined first that it is entirely within the power of this Board to supply money to meet the outstanding bills incurred by this council and it is the recommendation of this committee that after

certain conditions are met this be done.

Your committee is not satisfied, however, to recommend that this money be supplied on conditions set up by the Athletic Council as submitted to the Board on January 13, 1932.

We would recommend, therefore, that the action of this Board taken on December 9, 1924, recorded in minute book No. 10, page 248, which action created the High School Athletic Council be annulled.

We would further recommend that immediate action be taken to create a High School Athletic Council to be constituted of nine members as follows: The High School Principal, the president of the High School Athletic Association, the president of the Senior High School Student Council, three members of the Senior High School alumni and three members of the school board. We would recommend that the three alumni members and the three school board members be appointed by the president of the Board but that this appointment be subject to the vote of the Board for ratification and approval. In addition to the above we recommend that the City Superintendent of Schools, the Faculty Manager of Athletics and the coach of athletic teams, be ex-officio members of this council and that it shall be part of their duties to attend all council meetings, but they shall have no vote in the deliberations of the council.

If the action as above recommended meets the approval of the Board then it is the recommendation of this committee that if so requested by the newly organized athletic

council, after having given satisfactory evidence to the Board of its intent to conserve its resources and properly govern all future expenditures, the Board advance to said council a sum not to exceed \$3500.00 to use as the council may see fit but to be repaid to the general school fund in some definite manner and as promptly as possible.

If it is the will of the Board to approve the recommendations contained in this report the committee has prepared the proper resolutions to submit for your action.

Respectfully submitted,  
W. W. DUFF,  
W. D. CLELAND,  
A. W. BAUMAN.

### Board Named

The board then adopted the new form of athletic council and president Daniel B. Woolcock appointed A. C. Hyde, Dr. W. D. Cleland and Albert W. Bauman as members of the board to serve on the council. Members of the Alumni of Senior High School named to serve are Edward Wilson, George Dyke Blair and C. Leroy Shira.

The new Athletic Council replaces the one which has functioned since 1924 and was composed of the Superintendent of Schools, the Principal of the High School, the coach, the faculty manager, the president of the High School Athletic Association, a board member and a member of the Alumni Association. Under the new action of the Board of School Directors will have a more definite control over the actions of the council it was stated by Mr. Duff.

## Mitchell Scored By La Guardia In Attacking Of Bill

La Guardia Scolds Mitchell For  
Opposing Anti-Injunction  
Bill

(International News Service)  
WASHINGTON, March 24.—Attorney General Mitchell was vigorously assailed by Rep. La Guardia (R) of New York, today for his letter to President Hoover anticipating as unconstitutional some features of the Norris-La Guardia Anti-Injunction Act which the President signed last night.

"The attorney general's letter to the President indicates a preconceived prejudice against the rights of labor and inexcusable ignorance of the bill itself," La Guardia said. "The fact that the President signed the bill would indicate that he did not think much of the attorney general's opinion."

## Big Truck Skids Over Embankment

Accident Happens At B. & O.  
Overhead Crossing On Ellwood-Wampum Road

Enroute from Ellwood City to Wampum, coming over the viaduct at the B. & O. crossing, near Wampum shortly before noon today, one of the large trucks of the Pittsburgh Produce Company, skidded on ice on the road, and plunged over the embankment.

The truck turned over three times before it came up at the bottom of the embankment, but the driver, who was inside the cab, was not seriously hurt.

The car was seriously damaged, and the load of produce was largely ruined.

## Piles Go Quick

Without Salves or Cutting

Thousands of sufferers from itching, bleeding or protruding piles have learned that quick and permanent relief can only be accomplished with an internal medicine. Neither salves nor cutting remove the cause.

Bad circulation of the blood in the lower bowel causes piles. The veins are flabby, the bowel walls weak—the parts almost dead. To end Piles an internal medicine must be used to stimulate the circulation, heat and restore the affected parts.

Dr. J. S. Leonard was the first to discover a real internal Pile remedy. He called his prescription HEM-ROID and prescribed it for 1000 patients with the marvelous record of success in 950 cases, and then decided every Pile sufferer should be able to get HEM-ROID tablets from their own druggist with a rigid money back guarantee.

Dr. Leonard's HEM-ROID has an almost unbelievable record of success, right in this city. So why waste time on external treatments or worry about an operation when Eckerd's Cut Rate and New Castle Drug Co. supply every Pile sufferer with HEM-ROID with guarantee of money back if it does not end their Piles, no matter how stubborn the case?

## ROAMING

With Richards

Some News, Some Views, But Mostly Just Observations Of Interesting Things Around New Castle.

Not that this is intended to give the bakers an advertising break, but you really ought to lay in a load of hot cross buns tomorrow. Good Friday isn't Good Friday, from a dining standpoint, unless you include the old time bun on the menu.

And then on Sunday, you can "say it with flowers." Now there's a custom that the Spaniards never thought of. It's strictly American.

One of the lads who expected to clean up on lilies this Easter is bemoaning the cold snap. It set his lilies back for a ten yard loss and Easter will be over a week before his are ready.

And flowers mild don't forget the flowers. The old fashioned corsage seems to have gone the way of hoopskirts, leg-o-mutton sleeves, and whalebone stays, but they still make shoulder bouquets.

A few geraniums mixed with a dash of wild pansy or a background of best tops makes a very pretty ensemble, if you like ensembles. Orchids are good too.

And last, but hardly the least, a new bonnet and a gown are considered a fairly good substitution for a bouquet on Easter morning. As if you didn't know?

Had dinner last night as a guest at a fifty year wedding anniversary. Fifty years is a long time to be married, and it's always our custom to congratulate the bride upon the fortitude she has displayed in living with one man that long.

Members of the school board are wondering if they rate any overtime. One regular meeting a month was once the custom. Now it's a poor month if they don't have a couple of extra nights and a special meeting. Last night for example.

## PETRIFIED PARK

IN SOUTH DAKOTA

LEMMON, S. D., Mar. 24.—This town of 1200 population boasts of one of the most unique public parks in the world.

Ole S. Quammen, former mayor of Lemmon, caused hundreds of tons of petrified trees and fossilized bones of prehistoric animals to be assembled just off the principal street in the center of the town.

The principal figure in the park is a castle constructed entirely of petrified wood slabs. Pyramids and spires and other objects made from the wood surround the castle. More than 300 tons of the rock were used in the construction of the building which is 24 feet long, 24 feet wide and 30 feet high.

## when "COLDS CATCH YOUR CHILDREN"

... a cleansing dose of Castoria!

The first step to take when your child catches cold, drowsy, or irritable, is to cleanse the body of all accumulated waste and infection-breeding material.

To carry off this poisonous matter, nothing is better than Castoria. It acts gently and mildly enough for children's delicate requirements, and yet it does the work unflinchingly.

Castoria, you know, is a pure vegetable preparation made specially for babies and children. It contains no harsh, harmful drugs, no narcotics of any kind. It is so mild you can safely give it to relieve a colicky baby. Yet, in larger doses, it is an effective regulator for older children. And another help for mothers—children like its taste!

When you find a cold, a little fever, or a digestive upset starting, call in Castoria's kindly help. Your doctor will commend you for wise, prompt action. Don't forget—the genuine Castoria always has the signature of Chas. H. Fletcher on the package. Be sure you get genuine Castoria.

## PERSEVERANCE AT LAST IS REWARDED

(International News Service)  
FORT WORTH, Tex., Mar. 18.—Michael Murey's perseverance of forty years' duration finally has been rewarded.

More than forty years ago Murey lost a piece of city script entitling him to \$50 for street work. Time and time again Murey ransacked his home in search of the script. A small stack of old papers finally was found to contain the long lost treasure and Murey took it to the city hall and demanded his money from the city clerk.

notation and the record of an ordinance authorizing the use of such script.
